

- 1** Find a Podcatcher whose green light is constantly lit.
(If the yellow light is blinking you can still hand it out, but the last sync was more than 24 hours ago).

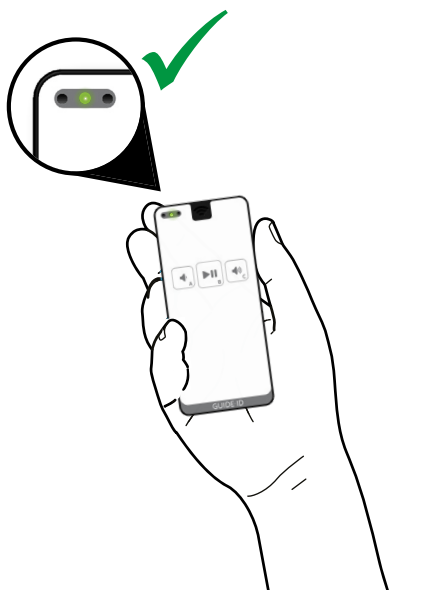

- 2** Take the Podcatcher out of the Dockingstation

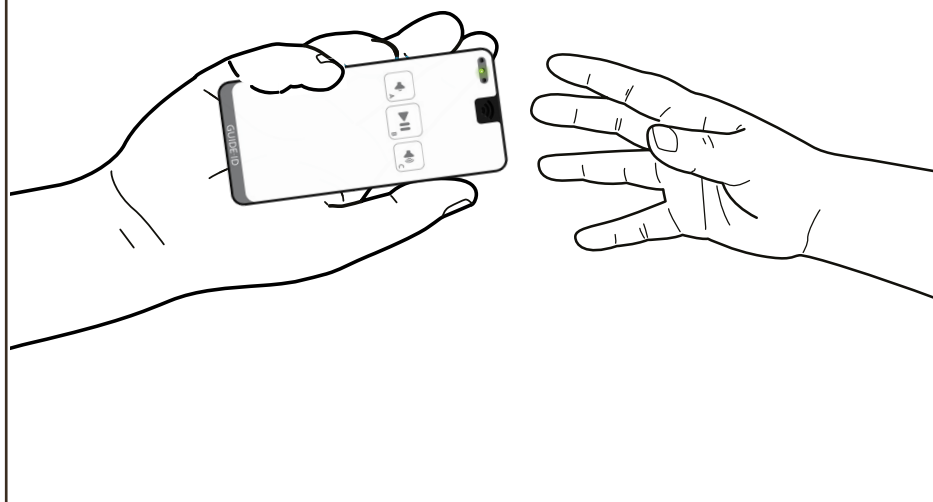

- 3** Aim at the start IDentifier of the desired tour / language.

- 4** The green light is on, the Podcatcher is ready for use.

- 5** Hand the Podcatcher to the visitor.
If necessary, refer to the IDentifier instruction.

Intake on next page

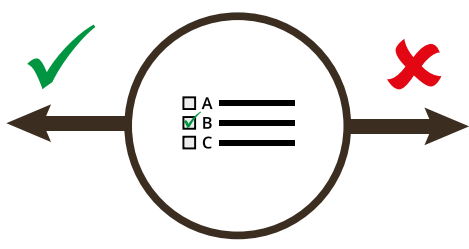

1 The visitor hands over the Podcatcher

2 Ask if the visitor wants to do the survey on the Podcatcher. If you have one.

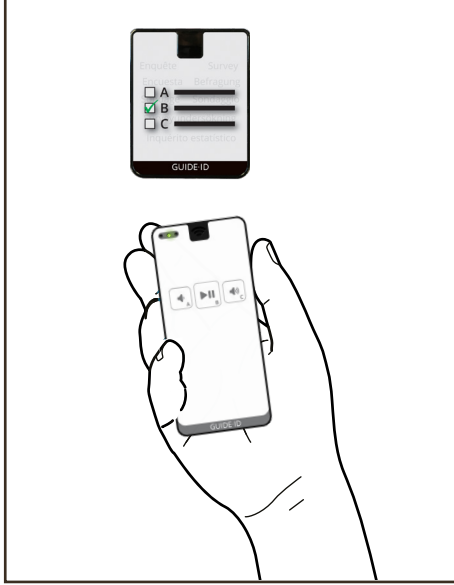

3 Visitor wants to do the survey.

4 Visitor does not want to do the survey. (Or has already done that).

3^a Target the Survey IDentifier and let the visitor do the survey.

4^a Place the Podcatcher back into the Dockingstation
